

Company Profile

Rooted in Jaffna.

Growing with Purpose.

Company information | October 2026

Venkadeshwara manufactures and supplies edible oils, bakery fats and industrial by-products, serving households, food businesses and distributors across Sri Lanka. ENOVA connects our product range with everyday cooking and commercial food production.

From Trading to Manufacturing

Founded by Mr. Kanakasingam Suganthan, the business began in edible oil trading in 2001. Edible oil imports commenced in 2013, followed by incorporation as a private limited company in 2014. Refinery construction began at the Atchuvveli Industrial Zone in 2018, with storage investment in 2020. The refinery and solvent extraction plant were completed in 2023. Refinery capacity, margarine production and bottling facilities expanded in 2025.

Manufacturing Capabilities

Capability	Available capacity
Refinery	17,000 tonnes
Solvent extraction	30,000 tonnes
Margarine plant	7,500 tonnes

Capacity figures are drawn from supplied company information and describe available capacity, not actual output or utilisation. A yearly time basis is not assumed.

Our Portfolio & Business Relationships

Edible Oils

RBD palm olein, coconut and rice bran oils, alongside sunflower and soybean oils. Retail and bulk pack formats support home kitchens, hotels, restaurants and food manufacturers.

Margarine & Bakery Fats

Margarine, bakery compounds, vegetable ghee and pan lubricants for baking and commercial food preparation.

Industrial By-products

Palm stearin, palm/coconut/rice free fatty acids, rice bran wax and rice bran animal feed for further processing, industrial and feed applications. Supply formats include bags and bulk as applicable.

Customers & Distribution

The company serves more than 150 B2B customers according to supplied company information, including wholesalers, distributors, hotels, restaurants, bakeries, food manufacturers and selected retail outlets. Manufacturing operations in Jaffna support supply relationships across Sri Lanka.
